Subject: [SPAM] DI-2

Wendy,

I appreciate you meeting with us yesterday.

We are working on a program to test the DI-2 well to define the well's integrity in the first cement stage in the longstring casing.

I am not sure of the timing of said testing, but I know the EPA requires advanced notification.

Please consider this note our notification that we will be testing the well soon. As soon as we have a plan together, we will send it to you for your review and better define the testing date.

Pat OBrien
